IN THE CLAIMS:

Please ADD the following new Claims 25 - 27

Sub B3

- 25. A computer-implemented method comprising:
determining a purchase price for a purchase including at least one item;
receiving a rounding code for a first item not included in the purchase;
determining a rounding multiple corresponding to the rounding code;
rounding the purchase price based on the rounding multiple; and
allowing an exchange of the at least one item and the first item for the rounded purchase price.--
- 26. A computer-implemented method comprising:
determining a purchase price for a purchase including at least one item;
receiving a rounding code for a first item not included in the purchase;
determining a rounding multiple corresponding to the rounding code;
rounding the purchase price based on the rounding multiple; and
receiving the rounded purchase price in exchange for the at least one item and the first item.--
- 27. A computer-implemented method comprising:
determining a purchase price for a purchase including at least one item;
receiving a rounding code for a first item not included in the purchase;
selecting a rounding multiple from a plurality of rounding multiples based on the received rounding code;
rounding the purchase price based on the selected rounding multiple; and
receiving the rounded purchase price in exchange for the at least one item and the first item.--
